Spring 1997

To Whom It May Concern:

This letter reaches you because of an interest I have in "F.S.A." (Fundamental Sports Academy). I do this because I believe this organization provides a program that is designed to assist and educate the youth of today, as they prepare to step into the roles of leadership in the future.

Paul Fresques has and continues to devote a considerable amount of personal time and energy, of which he receives no monetary compensation I might add, to insure this organization presents a positive mission statement to the communities that embrace F.S.A. Paul has defined F.S.A. with the values and integrity that solicit the desire of the youth to succeed in objectives they establish throughout life. As a parent I endorse the curriculum of F.S.A..

I have worked with many people that have been very visible in their proclamations of intentions to foster success, only to demonstrate that these proclamations were nothing but hollow promises. Mr. Fresques makes no such loud or flashy overtures. He simply takes the task at hand and goes about his business with the proper demeanor and then reports back as to his success, which is always complete and well manicured. This is the attitude Paul Fresques has taken towards Fundamental Sports Academy.

I encourage you to review this program very carefully and in the end I am certain you will recognize the importance of an organization of this caliber and what it will deliver into the lives of our youth.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Bryan Hurst'.
