To whom it may concern,

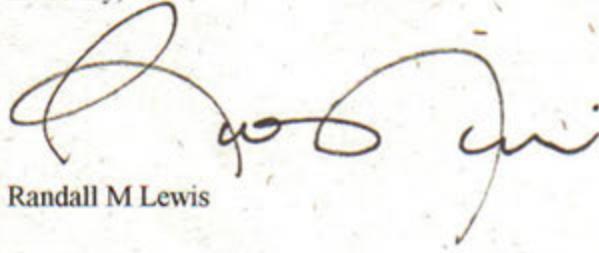

We have been working with Paul Fresques here at Synergy Design with preliminary plans for a facility for FSA.

Paul has demonstrated enormous commitment and vision to his work with FSA. Even though we are very busy here, he motivated us to provide design work for a new youth facility. We have all been very excited about his plans, and all of us here wish him the best of luck with his dreams and hopes.

We were willing to contribute our time and resources because of Paul's vision and because he was able to communicate his vision in a way which makes us want to be a part of it. I am optimistic that the facility we designed for FSA will eventually be built because of Paul's dedication and sacrifices. We look forward to helping FSA complete its vision of this facility.

We strongly support Paul and FSA and recommend to any person or organization that they contribute their time and or resources to FSA. I believe that its presence in the community could accomplish and immeasurable amount of good for coming generations.

Sincerely,

Randall M Lewis
